

# We've constructed over eight million m<sup>3</sup> of storage capacity. Yet, we have a lot more in store for you.

Globally recognised as one of the major engineering construction companies, Punj Lloyd has executed significant projects in tankage and terminals including those for LNG and LPG storage. One of the few contractors with experience in mechanical, civil and insulation work for LNG tanks, Punj Lloyd is the only company to be involved in all three LNG storage terminals in India including the re-gasification terminal at Dabhol, the LNG storage tanks for Shell at Hazira and Petronet LNG Terminal, Dahej. Punj Lloyd has also executed the tank farm project at the Jamnagar refinery for Reliance Industries Limited, the Bulk Liquid Products Terminal in Singapore and tank projects of GASCO for Bechtel in Abu Dhabi, among others.

Along with group companies, Simon Carves and Sembawang, we are also present in a host of verticals and have made an indelible mark in pipelines, refineries, power, petrochemicals and urban infrastructure.

## The Punj Lloyd Group.

We'll go to the end of the world to give you the best on earth.
